Experience

Amazon / FC Associate I

September 2022 - PRESENT, Sacramento, Ca

Contributed to Operational Excellence initiatives, collaborating across teams to enhance processes. Certified 150+ Associates in safety over several months, fostering a safety-centric environment. Led workplace safety audits, implementing effective measures and protocols.

Target / Team Leader

December 2017 - September 2022, Woodland, Ca

Directed worker training, oversaw staff hiring, and evaluated performance. Reviewed procedures to enhance service, performance, and safety. Strategically assigned tasks for optimal team productivity. Established department policies for a high-performing work environment and improved customer service, resulting in heightened satisfaction.

Tassajara Kennel / Groomer

June 2016 - October 2017, Livermore, Ca

Conduct comprehensive animal grooming, including washing, brushing, clipping, and trimming coats, cutting nails, and cleaning ears.

Education

Fullstack Academy / Full Stack Web Development Certification

February 2023 - October 2023, Online

Our advanced bootcamp curriculum equips students with in-demand software engineering skills through a project-based approach. Graduates are job-ready for coding roles across the US after part-time online study. Our JavaScript-driven program focuses on cutting-edge web technologies like Node.js and React. We empower students with the tools and support needed for a successful career launch, while they bring dedication and drive to the table.
